MEDIA ALERT Traitors can plan for even sneakier betrayals with four new items now available for crafting. The Disguise Kit allows the single changing of a Traitor·s appearance to look exactly like another character, dead or alive. There is no way to alter in-game voices though, so be careful when speaking up. Draw Survivors away from the rest of the group with the Sound Emitter . This sinister trap emits audio clips over a short amount of time and a very long distance before eventually self-destructing. This free update also includes UI changes, removal of the ability to see characters who voted in the exile booth, increase in the max number of roles in matches, among other quality of life improvements. Project Winter is available now on PC via Steam, Nintendo Switch, PlayStation 5|4, Xbox Series X|S|One with a new price of $9.99 USD. Project Winter is also available for free on iOS and Android mobile devices . For more information about Other Ocean, please visit the official website , follow the studio on Twitter , Instagram , Facebook and Discord , as well as search #ProjectWinter on social media. More than 2.5 million survivors across all platforms have braved the cold in Project Winter , the eight person social deception survival game. To celebrate, developer Other Ocean (whose other works include MediEvil 2019, Minecraft 3DS, and Rick & Morty: Virtual Rick-ality) releases a free content update today adding in new craftable items for Traitors along with a permanent price drop to $9.99 USD. Take advantage of the bitter cold tundra through the creation of Ice Bombs . Similar to Smoke Bombs, these chilling explosives not only create a poof of smoke to obscure vision but also rapidly reduce survivors· warmth. Turn the white sleet beneath one person·s feet into a silent cloud thanks to the single-use Snow Shoes . Eliminate any traces of footprints or the loud crunch of snow-steps with increased movement speed for a short time. ·If you told us that our social deception passion project would reach over 2.5 million total players, we never would have believed you,· said Ryan Hale, Product Director of Other Ocean. ·We are so grateful to everyone who gave Project Winter a chance. We have even more updates planned for this year to make a powder fresh experience for our dedicated community, including possible teases for our next Project. Stay warm and stay tuned!·
